Bill Hoggs, Navy  
Romeo Montenegro, Air Force  
Albert Lomas, Air Force  
John Pebley, Marine Corps  
Brandon Wingle, Navy  
Ryan Musgrove, Navy

The principals of judo are "maximum efficiency" and "mutual welfare and benefit." The goal of judo according to our founder, Dr. Jigoro Kano, is "the harmonious development and eventual perfection of the human character." Holding this event, or at least being able to do so quickly and efficiently, would be quite impossible without outside help and support.

Veteran's Day celebrates service, including that of our countrymen who every day face struggles in their daily life. One of the objectives of this tournament is to make our members aware of the veterans alive and among us in the judo community and in the community at large, and to honor and remember their service in a personal way. I hope that your continued assistance over the years is mutually beneficial towards accomplishing the goals of the VVSD.

Kind regards,

*Bill Caldwell*
